DRAIN FOAMING UNITS

The “**DRAIN FOAMING UNITS**” operate on compressed air and require only pre-mix chemical solutions to create thick, long lasting foam.

Pathogens and biofilm can accumulate in drains, especially on drain walls above the normal fluid level. Foam provides 360 contact along pipe wall for maximum sanitation.

- ▶ Create consistent foam during use.
- ▶ Are portable and easy to move.
- ▶ Reduce labor time.
- ▶ Utilize non-pressurized tanks.

DRAIN SANITATION SYSTEMS

- ▶ 10 Gallon Foam Unit.
- ▶ 15 Gallon Foam Unit.
- ▶ Drain Foaming Attachment.
- ▶ Trench Drain Foaming Attachment.
