2. HAZARD(S) IDENTIFICATION

Classification

Classification of the chemical in accordance with 29CFR §1910.1200

| Respiratory sensitization | Category 1 |

Label elements

Danger

Hazard Statements
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

Precautionary Statements - Prevention
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P285 - In case of inadequate ventilation wear respiratory protection

Precautionary Statements - Response
P304 + P341 - IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing
P342 + P311 - If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician

Hazard Statements

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

3. COMPOSITION/INFORMATION ON INGREDIENTS

Hazardous Components

4. FIRST AID MEASURES

In case of unintended overexposure, the following measures apply

**Inhalation**
- **Effects**: May cause allergic respiratory reaction
- **Symptoms**: Shortness of breath, wheezing and coughing
- **First Aid**: Remove person to fresh air. If signs/symptoms continue, get medical attention. Show this safety data sheet to the doctor in attendance.

**Skin Contact**
- **Effects**: May cause slight irritation.
- **Symptoms**: Slight irritation.
- **First Aid**: Remove and wash contaminated clothing before re-use. Wash off immediately with plenty of water. If symptoms persist, call a doctor. Show this safety data sheet to the doctor in attendance.

**Eye Contact**
- **Effects**: May cause slight irritation.
- **Symptoms**: Slight irritation
- **First Aid**: Hold eye open and rinse slowly and gently with water for 15-20 min. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. If symptoms persist, call a doctor. Show this safety data sheet to the doctor in attendance.

**Ingestion**
- **Effects**: Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
- **Symptoms**: Irritation
- **First Aid**: Rinse mouth with water and drink plenty of water. If symptoms persist, call a doctor. Show this safety data sheet to the doctor in attendance.

5. FIRE-FIGHTING MEASURES

**Flammable Properties**: Slightly flammable according to HMIS criteria

**Suitable Extinguishing Media**: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide

**Unsuitable Extinguishing Media**: None

**Hazardous Combustion Products**: None

**Specific Hazards Arising from the Chemical**: May cause allergic respiratory reaction
Protective Equipment and Precautions for Firefighters

Self-contained breathing apparatus and standard turnout apparel

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
For personal protection see section 8

Environmental Precautions
Collect spillage.

Methods for cleaning up
Avoid formation of dust and aerosols
Spilled preparation should be removed immediately to avoid formation of dust from dried preparation. Take up by mechanical means preferably by a vacuum cleaner equipped with a HEPA (High Efficiency Particulate Air) filter. Flush remainder carefully with plenty of water. Avoid splashing, high pressure washing or compressed air cleaning to avoid formation of aerosols. Ensure sufficient ventilation. Wash contaminated clothing.

For personal protection see section 8

7. HANDLING AND STORAGE

Handling
Avoid formation of dust and aerosols
Ensure adequate ventilation
Liquid enzyme preparations are dustfree preparations. However, inappropriate handling may cause formation of dust or aerosols.

Storage
Keep tightly closed in a dry and cool place. Temperature 0-10 °C (32-50 °F)

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>DNEL Dermal Acute Local (Workers)</th>
<th>DMEL Inhalation Long term Local (Workers)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Polygalacturonase (aep)</td>
<td>DMEL = 60 ng/m³</td>
<td>DMEL = 60 ng/m³</td>
</tr>
</tbody>
</table>

Derived Minimal Effect Level (DMEL)

Occupational exposure controls

Engineering Controls
Ensure adequate ventilation, especially in confined areas
Maintain good conditions of industrial hygiene. Some processes may require enclosures, local exhaust ventilation, or other engineering controls to control airborne levels. Additional handling and healthy/safety information is available upon request

Personal Protective Equipment

Respiratory Protection
In case of insufficient ventilation wear suitable respiratory equipment that meets HEPA/P100 specifications

Eye Protection
Safety glasses with side-shields
Skin and body protection
No special technical protective measures are necessary

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practices

Environmental exposure controls
Local authorities should be advised if significant spillages cannot be contained

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

<table>
<thead>
<tr>
<th>Property</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physical State</td>
<td>Liquid</td>
</tr>
<tr>
<td>Color</td>
<td>Brown</td>
</tr>
<tr>
<td>Odor</td>
<td>Slight fermentation odor</td>

<tr>
<td>Density (g/ml)</td>
<td>1.17</td>
</tr>
<tr>
<td>pH</td>
<td>Adjusted to the range where active enzyme is stable – typically pH 4 – 9</td>
</tr>
<tr>
<td>Solubility</td>
<td>Active component is readily soluble in application-relevant solutions at all levels of concentration, temperature and pH which may occur in normal usage</td>
</tr>
</tbody>
</table>

Other information
No information available

10. STABILITY AND REACTIVITY

Reactivity
Not relevant

Chemical stability
Stable under recommended storage conditions

Possibility of Hazardous Reactions
None under normal processing

Conditions to Avoid
None

Incompatible materials
None

Hazardous Decomposition Products
None

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

<table>

</tbody>
</table>

Mobility in soil: Not relevant

Other adverse effects: No information available

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method: Dispose of in accordance with local regulations

Contaminated Packaging: Dispose of wastes in an approved waste disposal facility

14. TRANSPORT INFORMATION

Transport Regulations
No dangerous goods according to transport regulations
No special precautions required

Transport hazard class(es): not applicable

Packing group: not applicable

Environmental hazards: not applicable

15. REGULATORY INFORMATION

The product complies with the recommended purity specifications for food-grade enzymes given by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) and the Food Chemical Codex (FCC).
15. REGULATORY INFORMATION

USA, Federal Regulations

TSCA Inventory
The active ingredient and all components of the enzyme preparation are listed on the TSCA inventory.

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and 40 CFR Part 372.

SARA 311/312 Hazardous Categorization
Acute Health Hazard: No
Chronic Health Hazard: No
Fire Hazard: No
Sudden Release of Pressure Hazard: No
Reactive Hazard: No

USA, State Regulations

California Proposition 65
This product does not contain any Proposition 65 chemicals.

Canada

WHMIS Hazard Class
Controlled product hazard class D2 A (respiratory sensitizer)

WHMIS Statement
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR.

16. OTHER INFORMATION

GHS-Classification
The GHS calculation method has been used for classification of this mixture.

Disclaimer
The information provided on this SDS is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered as a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text. Furthermore, as the conditions of use are beyond the control of Anderson Chemical Company, it is the responsibility of the customer to determine the conditions of safe use of these products.
