

ANTROL COP/MANUAL CHEMICAL CONTROL UNIT

The “**ANTROL COP/MANUAL CHEMICAL CONTROL UNIT**” is a multi-functional control panel with capabilities for timed feed of **COP** or manual dispensing needs. A thorough evaluation of your equipment requirements can be supplied by your **Anderson Chemical Company** representative.

- ▶ Optional color coded push buttons allow for specific product dispensing based on industrial color code standards.
- ▶ Has the ability to operate eight air-operated pumps with accuracy and repeatability.

FEATURES & BENEFITS

- ▶ Smart relays allow for operation at specific times of the day and specific timing intervals.
- ▶ Independent relays allow for accurate and repeatable on/off functions.
- ▶ Regulated air pressure results from the added regulator attached.
- ▶ Colored push buttons are specific for products used in conjunction with industrial standards.
- ▶ Air-Operated Double Diaphragm pumps used for dependable product delivery.
 - Polypro available when using non-oxidizing products
 - Kynar/FEP used for specific product applications
- ▶ White Board Mounting provides a clean and sanitary appearance while providing a maintenance free environment.
- ▶ Pick up systems include ID Tags, foot valves and check valves for the prevention of siphoning, back flow and misreading of drums.
- ▶ Complete installation includes all chemical lines from drum to point of use.
- ▶ Dispensing pumps are ID Tagged for ease of reading and safety.

■ Blue	Alkaline Products
■ Green	Neutral Products
