Safety glasses with side-shields. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH or EN 166

b) Skin protection:

Wear coveralls and/or chemical apron and rubber footwear where physical contact can occur. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance in the workplace.

i) Hand protection:

PVC or other plastic material gloves. Be aware that liquid may permeate gloves, frequent change is advised. Suitable gloves can be recommended by the glove supplier and need to satisfy the specification of EU Directive 89/689/ECC and EN 374 derived from it.

c) Respiratory protection:

No personal respiratory protective equipment normally required.

d) Additional advice:

Wash hands before breaks and immediately after handling the product. Wash hands before breaks and at the end of workday. Handle in accordance with good industrial hygiene and safety practice.
